

SURVIVED TWO WARS, THE NAVY BOMBING RANGE AND 40 YEARS WASTING IN THE DESERT TO FACE ITS GREATEST THREAT: **A DEADLINE.**

MAKE YOUR KICKSTARTER PLEDGE BY OCTOBER 30
to get B-29 "Doc" through flight testing.

Built near the end of World War II right here in Wichita, the B-29 bomber named Doc saw service through the 50s, then for 40 years somehow escaped destruction as a practice target on a desert bombing range.

- Rescued as perhaps the last flyable B-29,
- Doc has been painstakingly restored to flying condition, but needs immediate funding to get through flight test and into the air. Only you can
- keep history alive and flying. Pledge today.

DOC'S KICKSTARTER CROWDFUNDING DEADLINE IS OCTOBER 30.

Simply visit Doc's Friends at B-29DOC.COM and click on the Kickstarter logo.

KICKSTARTER.com is the secure website being used by Doc's Friends where worthy projects get off the ground with crowdfunding.
